

## INTERIOR DESIGN NETWORK OFFICE

This office space for Interior Design Network was housed within a three-story mixed-use building in the heart of historic Naples. It was necessary for the design studio to function as a full-time workspace for interior design professionals, while also being a tangible portfolio for clients to experience the firm's design style, level of quality, and integration of architecture and interiors. In order to capitalize on the prime location, showrooms were positioned along perimeter windows to create design vignettes seen by passing traffic. The design needed to be harmonious throughout the office, while also engaging the view from the outside.
