

## JOANNE'S HOUSE

Joanne's House is a 55,000 square foot Hope Hospice and Palliative Care facility. The building houses 24 resident rooms in three wings, as well as offices, nursing stations, counseling spaces, gathering and quiet rooms, and a spa-like bathing room.

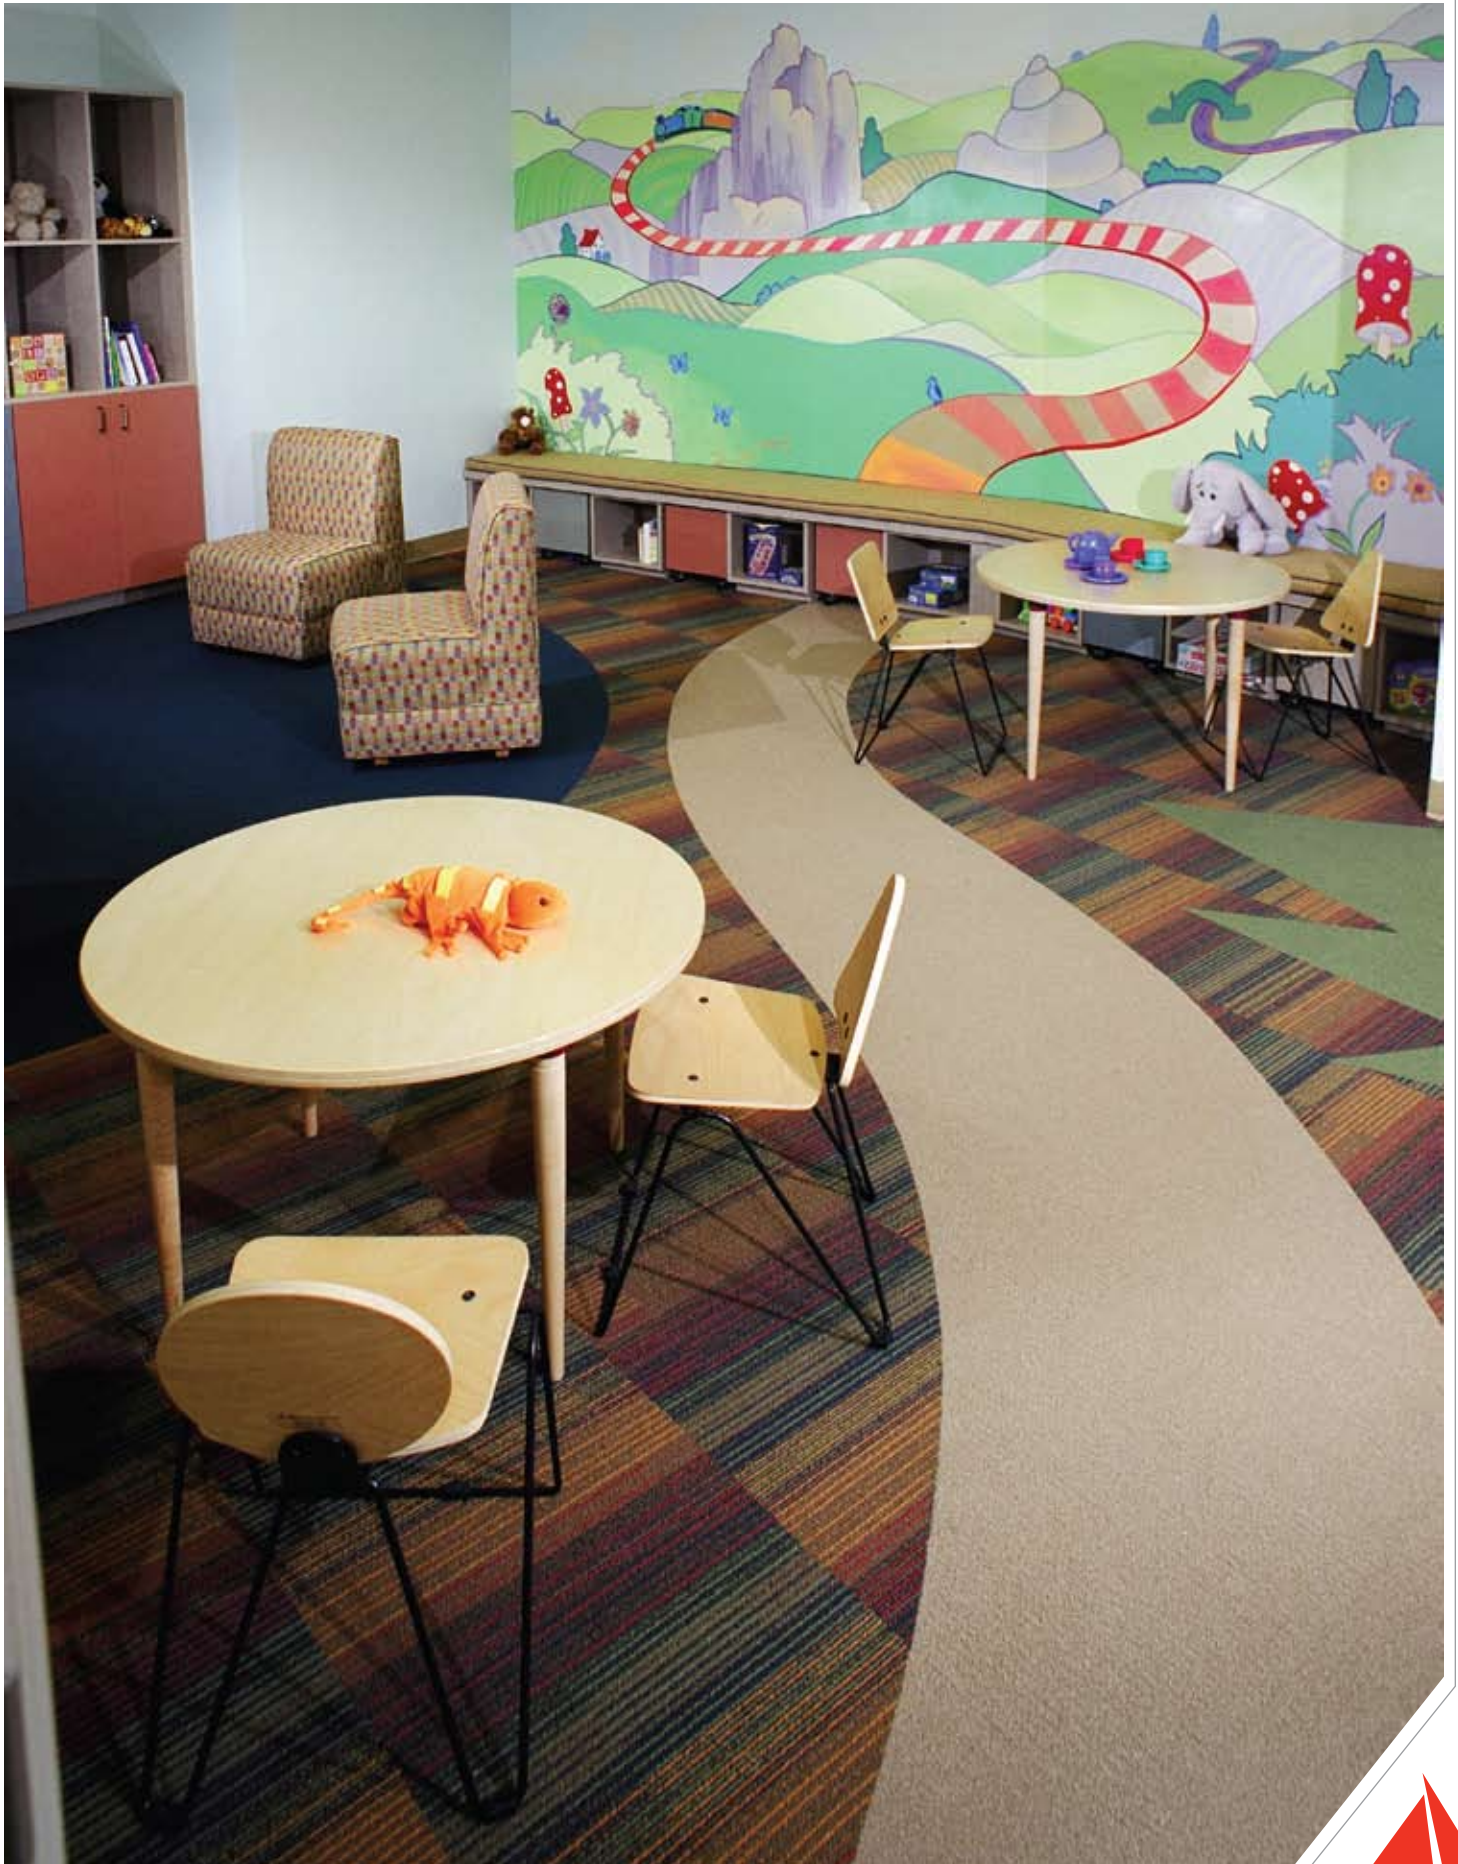

The interior design features were themed to reflect a Tuscan courtyard concept. To enhance the sense of home and comfort, all finishes and furnishings were carefully selected to maintain a residential appearance while adhering to healthcare durability and ACHA standards.
