

## NAPLES BAY RESORT

The Hotel at Naples Bay Resort was designed to incorporate the rich colors and distinct architectural features of Tuscan design. The main lobby features an intricate mosaic marble floor, hand forged iron work, and a custom blown glass chandelier in shades of amber, gold, green, and red. These warm colors, and high level of detail carry through the facility and guest accommodations.

An amenity offered exclusively to resort members, the Yacht Club and Captains Lounge offer distinct décor along with their distinct services. The modern design of the Yacht Club incorporates deep blue tones of the Gulf seen through rectangular glass floor tiles, and blue textured walls. The modern furniture upholstered in ivory, adds contrast to the deep blue colors and warm wood tones on the surrounding walls.

The Captain's Lounge is a relaxing room that welcomes boaters to rest in a spacious living room setting. A marble compass rose medallion greets weary travelers and directs them to the appropriate facility. Warm color tones and comfortable seating create a home-like atmosphere, while the tile floors, and quartz counters allow for easy clean-up and longevity. The Captains Lounge also includes washer and dryer facilities, and a spa-like restroom complete with showers and lockers.
