

## SUNSET COVE

Sunset Cove is a seven-story, 36-unit condominium project featuring a pool, spa center, large sun deck, meeting rooms, internet access, card room, bar and food service, and a dock space. Two types of units are featured in the building – The Islander a two bedroom, two bathroom, 1,667 square foot unit, while The Bahamian is a three bedroom, three bathroom, 1,900 square foot unit.

The architectural team developed the initial design and provided the client with color three-dimensional graphics for use in marketing materials and on a web site created exclusively for the project. Graphics included interior and exterior animated walk-throughs to illustrate the look and feel of the project from a variety of perspectives.
